Ephrata Fair

Steer Show

Angus Dominate Steer Show At Ephrata Fair

Led by a 4-H Club baby beef named Midnight, owned by Glenn Flickinger of Ephrata R3, Angus cattle at the Ephrata Fair finished one and two to shut out some excellent Hereford steers.

Flickinger's grand championship was won over 29 other projects, and represented his second showing effort He is the 14-year-old son of Mr and Mrs. Willis Flickinger, and is a freshman at Ephrata H S.

The reserve Angus shown by Miss Sharon Weaver, daughter of Mr and Mrs Lester M. Weaver of New Holland R1, was picked by judge John Fogel, Cumberland County agent, for the reserve grand champion title Miss Weaver's steer, named Claude, was bred by Old Home Manor Farm.

In the Shorthorn division, Miss Susan Hess of Mount Joy R1, won over David Heisey of Newmanstown.

In the special classes, Showmanship honors went to Larry

Lampeter Fair

Hog Show

John Welk Shows Top Individual And Pen

John Welk, 16-year-old sophomore at Lampeter-Strasburg High School, won double honors Wednesday afternoon at the West Lampeter Community Fair by capturing championships in both the individual and Pen of 2 events He was the defending champion in the Pen of 2 competition, having won that honor at last year's Fair

Welk, son of Mr. and Mrs. Leroy Welk of Strasburg R1 showed three of six Yorkshire littermates to the above honors These pigs were the first litter of a Yorkshire gilt he purchased last year. His individual champ weighed 250 pounds, while the Pen Pair weighed 275 and 240 pounds. He has two sows at home and expects to expand his hog program substantially in the future

The champion Pen of 4 was owned by Earl Livengood of 1648 Morningside Drive, Lancaster, but were shown in his absence by Robert Weaver, a 16-year-old junior at Lampe-

Dairy Co-Ops Petition Sec. On Milk Pricing

Dairy cooperatives in the New York-New Jersey milk producing area have filed a joint telegraphic petition with Secretary of Agriculture Orville Freeman asking for suspension of a portion of the fluid milk pricing formula for the months of October, November and December.

The joint telegram, signed by the presidents of the four cooperatives pointed up the situation in the milk producing area, stating that drought conditions continue; that production costs have increased 2½% since the same time last year, dairy feed costs are up 5%, while hay prices are up 15%; and pasture conditions are only 50% of normal for this season of the year.

An August 6th joint peti-

Countians Will Attend Nat. 4-H Club Congress

Three 4-H'ers from Lancaster County will be representing Pennsylvania at the National 4-H Club Congress at Chicago on November 28 - December 2, it was announced this week. The three club members were named state winners in the 1965 national awards program and will be among 42 4-H'ers attending the Congress from Pennsylvania

They are

J Dallas Wolgemuth, sixteen-year-old son of Mr. and Mrs. Lester Wolgemuth, Mount Joy R1, state winner in livestock conservation demonstration.

Miss Nancy Frey, sixteen-year-old daughter of Mr. and Mrs J. Harold Frey, Marietta R1, also a state winner in livestock conservation demonstration

Miss Virginia Wivell nine-

Virginia Wivell

Dave Erb To Attend Atlantic States Exp.

David Erb, president of the Manor FFA Chapter, will be leaving Sunday, September 26, for the Atlantic States Exposition at Richmond, Va. He will represent Pennsylvania in livestock judging competition. Erb placed eighth in that category at Penn State in June during the State FFA competition.

He is the 17-year-old son of Mr. and Mrs. Daniel Erb of Columbia R2, and is a senior at Penn Manor High School

County Diversion Payments Total 1/3 Million $

Farmers in Lancaster County thus far have received program payments totaling $333,085 for participation in the 1965 feed grain and wheat stabilization programs, Fred G. Seldomridge, Chairman, Agricultural Stabilization and Conservation County Committee has reported. The payments included diversion payments of $219,555

Greider Leghorn Farms, Inc. Wins Penna. 8th Random Sample Test

A Shaver Starcross 288 entry from Greider Leghorn Farms, Inc, Mount Joy, has been announced the winner of the Eighth Pennsylvania Random Sample Egg Laying Test which concluded on September 8, 1965.

In topping the 32-entry field, the Greider birds shelled-out 274 3 eggs per pullet housed, 32 5 eggs higher than the test average But to win the contest they had to return the greatest net income over feed and chick cost, which they did with a figure of $2 524 per bird. The test average was $1 916.

Also in terms of return over feed and chick costs, Lancaster County hatcheries had the second and third high entries They were Keystone Poultry Breeding Farm, Terre Hill, with $2 491 net return; and Babcock Hatchery, Lititz R3, with $2 475 return per bird

The Random Sample test is operated by the Pennsylvania Department of Agriculture. It is designed to measure the important economic traits of a randomized sample of a breeder's commercial birds These traits are measured and recorded from hatching to 500 days of age, and include. total eggs per pullet housed; hen day percent production;

Court Ruling Finds "Chains" Are Packers

A U. S. District Court has ruled that two national food chains, Safeway Stores, Inc., and The Great Atlantic & Pacific Tea Co, Inc., are meat packers subject to the jurisdiction of the Packers and Stockyards Act, the U. S. Department of Agriculture has reported.

The judgment was entered in the U S District Court for the District of Columbia on Sept 13

The Court ruled that the firms' manufacture and preparation of meat and meat food products for shipment in commerce constitute the operations of a packer within the meaning of that term as defined in the P & S Act. The

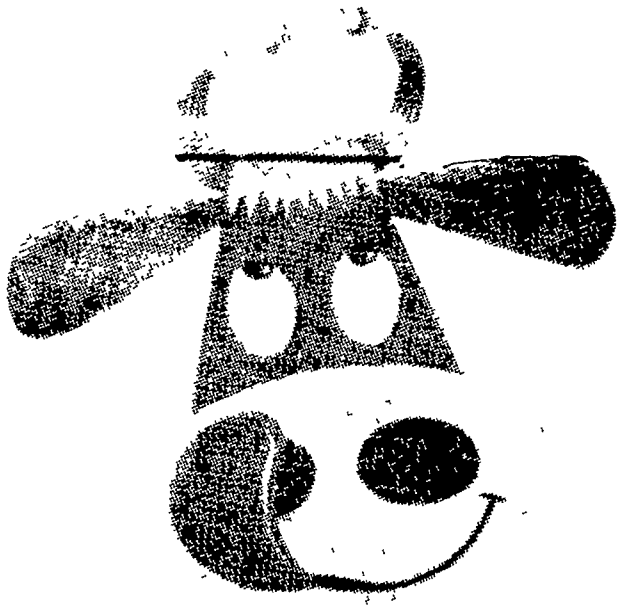
NEW LOW PRICE ON
WIRTHMORE MILK MIZER



- Its NEW high fat content (10%) — means higher energy and faster growth — smoother, healthier, glossy-looking calves. The high fat is obtained by employing a new high-fat, skimmed milk product.
- New — Vitamin A content (10,000 units) — provides growth promoting benefits so important in early calf life. Milk-Mizer's new vitamin A unit level insures a wide margin of safety.
- New, powerful emulsifier (Propylene Glycol) allows faster dispersion and aids in fat absorption by the calf. Milk-Mizer goes into suspension more quickly and is more digestible because of Propylene Glycol which also enhances coat condition and finish.
- Milk-Mizer has excellent keeping qualities and retains its nutritive value for months.

From Where We Stand . . .

Tomorrow's Leaders

In most agricultural pursuits, Lancaster County leads the state, and ranks near the top nationally. But at least as important as its agricultural production, is the county's prominence in training the youth who will help America to lead the world tomorrow. Local 4-H work is such a training ground.

Too often, in the flurry of local competition and activity, this broad, over-all goal is lost from sight; it should not be!

This point was summed up beautifully by Miss Marie Bushong of Columbia R2 as she competed last summer in the Senior 4-H Queen contest. Each contestant was asked to discuss briefly "What 4-H Means To Me". We'd like to repeat a few of Miss Bushong's words here as we remember them.

"America's greatest need today is the development of youth into leaders. 4-H is more than, as some people think, simply farm children gaining identity by raising a steer or cultivating a strawberry patch. Youth develops by learning to carry responsibilities, and there is something in the very nature of 4-H work that demands the cultivation of experience and responsibility." And the key word is **RESPONSIBILITY!**

As we celebrate National 4-H Club Week, September 25 - October 2, that vital point should be emphasized and reemphasized. As a people, Americans would seem to be following a trend away from acceptance of personal and civic responsibility. We seem more willing than at any time in our history to let others make our decisions, and this seems evident on all levels from local to international.

We hear a great deal these days about the irresponsible and insane behavior of youth in our big cities. Yet we hear comparatively little of the dedicated and responsible actions of the "good kids" This is not to suggest that "*all city kids are bad and all country kids are good*"; it is, of course, not that simple But it is encouraging to note that even though farm numbers are shrinking, 4-H continues to grow. Figures show that 4-H now extends far beyond rural areas with 46 percent of members coming from farm homes, 32 percent from rural non-farm homes, **and 22 percent from urban homes.** The influence of the 4-H philosophy on our urban areas is probably one of the best medications that could be applied. We hope this trend continues, and we are proud that Lancaster County is in the forefront on 4-H membership enrollment with over 1400 youngsters out of a state total of 42,000.

Old Committees Never Die

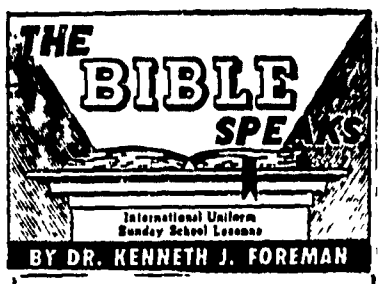
The closest man may ever come to perpetual motion is a government committee. Once established to investigate a specific problem, it proliferates its activities unto eternity. We originally felt the National Commission on Food Marketing had some worthwhile work to do — and we still think so, but are beginning to question the validity of some of its objectives.

The latest case in point is a recently declared intention of the Commission to determine "how well the U. S food industry satisfies the needs of the nation's consumers". Contrast that objective, if you will, with the point continually being hammered home by the U. S. Department of Agriculture that the average American spends less than 19 percent of his take-home pay for food Does that sound to you like an area that needs investigation?

Fifteen years ago the average consumer spent 26 percent of his income on food. Two things have happened during that period: the consumer's take-home pay has increased; farmers are producing food more efficiently, and it is being processed and marketed more efficiently and more competitively.

There are many outmoded and inequitable practices which the Commission could properly examine with the objective of upgrading and updating, but we fail to see that the one stated above is any more than another grandstand play to the almighty consumer. It is understandable that the political importance of the consumer far overshadows that of the farmer, but we don't enjoy seeing the farmers' own department — agriculture — relying so heavily on the consumer for justification of its future proliferation. One might even wonder before long just where the farmer will be able to turn for his representation. Chances are he will have to either **switch** to being a consumer, or **fight!**

What Do **YOU** Think?



Love the Link

Lesson for September 26, 1965

Background Scripture: I John 4 7-21
Devotional Reading: Ephesians 3 14-21.

"Love," said St. Paul once, "is the link of the perfect life." (Colossians 3:14 Moffat.) In his time there were no buttons nor button-holes. Safety pins had been invented, but few common people owned them. What held a man's flowing garments up and held them together was the girdle or sash. With this large "cummerbund" as we would call such a thing today, a man could be neatly dressed. Without it, he rapidly became undressed, a mess of flapping robe and tunic and what not. We can put on all the virtues, but unless we put love on also, the virtues we have will be blown away. Love unites all the virtues, love fulfills all the commandments. Paul and our Lord alike emphasized the fact that the "great Commandment" is not any of the famous ten. They are each one a different way of expressing the great commandment of Love.

Dr. Foreman

How can we love God?

"Thou shalt love thy God" is glibly said in Sunday school by children who are memorizing passages in the Bible. But when we grow old enough to think about such things, this seems like an impossible commandment to obey. For one thing, is love something that can be turned on or off at will? Can even God say to us, at the count of three, start loving — one, two, three, LOVE! Well, of course if we really thought that this is what God means, we should be thinking him a fool. What is meant by "Thou shalt" is more like "This is the way God wants us to think about him." But then another difficulty rises to the mind. Can we love God as we love a human being? The answer is No, it goes without saying. We have to use the same word for it whether we are thinking of loving God or men. Still it is not meaningless to speak of loving God. It is the opposite of hating him. To love is to draw closer; to hate is to withdraw, to avoid. To love is to unburden the heart; to hate is to bar the heart's door tight. To love is to share, to hate is refusing to share. A man in love with a girl — or the other way around — wants to do what the beloved wants done. So with the lover of God. One way to love Him is to become absorbed in his service, to love what he loves and hate what he hates. In today's jargon, by identifying with God's purposes we come to love Him.

If we love another . . .

Another way to arrive at the joyful state of love to God (which is more than believing or merely obeying or praising or "explaining") is to love our fellow-human beings. The "second great commandment" (not the second-greatest) is **Thou shalt love thy neighbor as thyself.** The Apostle John speaks not of neighbor but of brother. Evidently he has learned (from God, we may believe) that neighbor means brother. Begin to think of your neighbor as your brother, and you are on the road to loving God. If we love one another, John says, God lives in us and his love (our love of him and his love of us) is made perfect in us. We are not good enough to love God, to tell the truth; that we can love at all—God or man—is made possible by God's grace. Our love does not waken God; his love wakens us to love him and to love the "brother" whoever he may be.

Casting out fear

Man as he is, man-on-the-hoof, man as sinner, is more afraid of God than in love with him. Contracts sometimes make reference to "acts of God" meaning disasters of great magnitude. But sunshine and spring flowers and autumn colors are just as much acts of God as are fires and earthquakes. Loving God is not going to cast out respect and reverence and thanksgiving; loving God is not destructive of God's dignity. But it does cast out fear.

Now Is The Time . . .

MAX SMITH

To Sow Quality Seeds

Growers of winter barley and winter wheat are urged to be sure of the quality of their seed grain for next year's crop In many cases the seed is carrying too many weed seeds and some grain diseases. If home-grown grain is being used, it should be treated for disease control and a weed seed count made on it One of the best ways to guard against poor seed is to buy and plant Certified seed The needed maximum yield per acre is too important to take chances on poor quality seed

To Harvest Corn Fodder

With the shortage of bedding on many livestock and dairy farms, it is suggested that the corn stalks be harvested, after the corn is picked, and used for bedding purposes This material is rated as a very good bedding and absorbs large quantities of liquids After the stalks are dry, they can be shredded or chopped and then brought to the barn in bales or as loose material.

To Be Careful with Frosted Crops

In spite of recent weather conditions, killing frosts are soon to come and will demand careful management of some of our forage crops Sudan grass sorghum hybrids, and alfalfa require special feeding care after killing frosts. The sudan grass and the sorghum hybrids should not be used in a fresh state after a killing frost, however, they can be made into silage and permitted to ferment for several weeks Livestock should not be allowed to graze alfalfa when the frost is on the plants, this condition may cause acute bloating; after the frost is melted and the plant is dry, the alfalfa may be safely grazed

To Check Electric Wiring

Before the winter season approaches and all livestock are housed, it is suggested that every farmer be certain that the wiring in the barn is safe and that all insulation is in place. In some cases, extra electric equipment added in recent years might be too much of a load for the size of wires A close inspection and correction of danger spots might prevent a serious fire.

EGG PRODUCERS

All Systems Are Go For Better And Lower Cost Egg Production

ANNOUNCING An ADVANCED and IMPROVED program for feeding layers

The EARLY BIRD OPTIMUM PERFORMANCE LINE

This program will —

1. Get them up there quicker.
2. Keep them up there longer.
3. Bring them down slower.

PLUS

- Larger average egg size in the early stages of production.
- Better liveability through improved flock health.
- Better overall shell quality.

WHEN AVAILABLE - October 4, 1965

This program will match maximum performance with sensible minimum costs per dozen or per pound of eggs,
at all levels of production
for both cage and floor operations!

For further information on the new Early Bird Optimum Performance Line, ask your Early Bird representative or call —

"FINEST SERVICE ANYWHERE"

● "Chains"

(Continued from Page 1)

Court's ruling requires the firms, as packers, to file annual reports of their operations with USDA.

Officials of the Packers and Stockyards Division of USDA's Consumer and Marketing Service, which aministers the P & S Act, said the action arose from civil suits filed by each firm against the Secretary of Agriculture in June 1962. The suits, later consolidated by the Court, sought judgments that the firms were not packers within the meaning of the Act, and that they should not be Act, a Federal statute which regulates those engaged in interstate livestock and poultry required to file annual reports.

The Packers and Stockyards marketing and meat packing, prohibits unfair, deceptive, discriminatory, and monopolistic marketing practices.

Regulations issued under the Act require that all livestock dealers and market agencies and meat packing firms must file annual reports of their operations with USDA.

● Milk Pricing

(Continued from Page 1)

tion by the four cooperatives was still unanswered at the time this latest request was released.

Should Secretary Freeman follow the cooperatives' request, fluid milk prices for the last three months of 1965 might conceivably be advanced by about 22 cents per hundred pounds, or less than ½ cent per quart Farmers' returns, depending on utilization of all milk, might be as much as 10 cents per hundredweight of all milk produced

ATTEND THE CHURCH OF YOUR CHOICE SUNDAY

County Breed Assn's. Present Calves To FFA

The three Lancaster County dairy breed associations made their annual calf presentations to three members of the Future Farmers of America Thursday at the Lampeter Fair. The recipients of the calves were chosen earlier this week by the vocational agriculture teachers and representatives of the respective associations.

The Holstein calf went to John Kurtz of Elizabethtown. He is a sophomore at Elizabethtown H.S., and is the 15-year-old son of Mr. and Mrs. Jacob L. Kurtz, 1160 North Market Street, Elizabethtown. The calf, Fultonway Ivanhoe Pride, was donated by the J. Mowery Frey farm, 401 Beaver Valley Pike, Lancaster. Its sire is Fultonway Ivanhoe Wylwyn, and the dam is Erlanda Lauxmont Pride. Kurtz was chosen from among 18 boys who had applied for this calf.

The Guernsey calf was won by Edwin Breneman, a sophomore at Lampeter-Strasburg H.S. He is the 14-year-old son of Mr. and Mrs. John A. Breneman of Willow Street R1. The calf, Lindenhof Top Command Gustine, was bred on the farm of K. Dueter Linde, Oxford R1 Its sire is Gayoso View Top Command, and its dam is Lindenhof Admiral's Guste.

The recipient of the Ayrshire calf was Paul Brubaker, 17-year-old son of Mr. and Mrs. Milton M. Brubaker of Lititz R1 He is a junior at Warwick H S The calf was donated by Spruce Villa Farm, Lititz R1. It was sired by Jon-ell Colonel's Fashion, and its dam is Spruce Villa Cors Royal. The calf is registered under the name of Spruce Villa Fashion Royal.

Shaver Starcross 288 Layers Win 1965 Pa. Random Sample Test

- Highest net income — $2.52 per bird
- Highest hen housed production 274.3 eggs (13 eggs more than the second place pen)
- Third best feed conversion 3.68 lbs. per dozen
- Good liveability — 97.3%

The results of this test just prove what many Pa. poultrymen already know. . . . You just can not beat the Shaver Starcross 288 for production and making money.

Greider Leghorn Farms, Inc.

ALL "Certified" SEED IS NOT ALIKE

DON'T LET ANYBODY tell you all Certified seed is the same. There IS a difference! A. H. Hoffman Seeds, Inc. is not only the largest producer of "Certified" winter grains in Pennsylvania, but the superior quality of Hoffman "Certified" seeds exceed the state certification standards by a wide margin.

FOR EXAMPLE:

Penna. Certification Requirements for Wheat		A. H. Hoffman's Certified REDCOAT WHEAT (3 year average)
99.00% (minimum)	PURITY	99.75%
1.00% (max.)	INERT MATTER	0.25%
90.00% (min.)	GERMINATION	94.7%
58 lbs. (minimum)	WT. PER BU.	61.5 lbs.

The certification tag is not enough. Hoffman tags on the seed you sow can mean bigger crop profits for you. That fact has been demonstrated over 60 years.

Get complete information and prices on Hoffman Pennrad BARLEY; Redcoat WHEAT; Balboa and Tetra-Petkus RYE.

Contact your Hoffman Seedman or phone 898-3421 for delivery to your farm.

Dwarf Mosaic Moving East; Now In Penna.

Maize dwarf mosaic, a new virus disease of corn that spread over virtually all of Ohio in three years, has been found in Pennsylvania.

Discovery of the disease, in two fields near Lock Haven, was reported recently by the Pennsylvania Department of Agriculture and by the College of Agriculture of The Pennsylvania State University.

State Agriculture Secretary Leland H. Bull said "the seriousness of this discovery and its potential threat to corn production in Pennsylvania dare not be overlooked.

"The disease was first detected in southern Ohio in 1962 and by 1964 had spread into all but nine of the state's 88 counties. Last year Ohio's loss was estimated at five million bushels of corn worth $5 85 million."

The initial find in Pa. was made August 6 by Dr. Clifford C Wernham, plant pathologist of Penn State, and a graduate assistant, David R. MacKenzie

On August 21, Dr. Wernham and MacKenzie found affected plants in two late-planted fields of sweet corn about a mile from the first site

Juice from the stalks was transmitted to corn in greenhouses at Penn State and these plants developed positive symptoms of the disease, Dr Wernham reported Similar results were obtained in tests performed in the laboratories of the Agriculture Department by William L Yount, plant pathologist

Dr Carlton F Taylor, chairman of extension plant pathology at Penn State said discovery of the disease near Lock Haven was by chance "We intend to continue the search in other areas of Pennsylvania," he added

Characteristic symptoms of of the disease are a mottling, or mosaic pattern of light and dark green on leaves of young plants, and subsequent stunted growth. Later, leaves may appear uniformly yellow, or develop red or reddish purple spots in late August or September.

Plants affected early in the season produce ears with little or no grain.

Henry F. Nixon, director of the Agriculture Department's Bureau of Plant Industry, said at present the only method of controlling maize dwarf mosaic is to plant one of the very few known resistant varieties of corn. He added that "progress is being made" in research to develop hybrids resistant to this disease and adapted to varying climatic conditions.

USDA Yearbook Of Agriculture Now Available

How the U S Department of Agriculture's services are woven into the fabric of American life is reflected in **Consumers All,** the 1965 Yearbook of Agriculture which packs into 496 pages thousands of how-to-do-it facts for everyday living

Subjects covered include buying and using food, clothing, household furnishings, and equipment, managing money; caring for yards, gardens, and houses; improving communities, using leisure time, and staying healthy.

"This book presents practical results of the Department's efforts to make the lives of people healthier, happier, more fulfilling," Secretary of Agriculture Orville L. Freeman points out in a foreword. He notes that two in every three dollars of USDA expenditures "are spent for services of primary benefit to all of us as consumers"

"Though a primary objective of the Department is service to U. S. farmers and ranchers," Secretary Freeman states, "the real beneficiary of agricultural productivity and abundance has been, is now, and will continue to be the American consumer"

The Yearbooks are distributed mainly by members of Congress, each of whom has a number for free distribution **Consumers All** can be bought at $2 75 from the Superintendent of Documents, the Government Printing Office, Washington, D C 20402 The Agriculture Department has no copies for general distribution

The word beriberi is derived from the Singhalese and means "I cannot," indicating the person is too ill to do anything.

4-H Club News

BOOTS & SADDLES CLUB

by Darlene Neff, reporter

The regular monthly meeting of the 4-H Boots and Saddles Horse and Pony Club was held on Friday, Sept. 10 at the home of Jay Wissler, Landisville.

Money from the sale of light bulbs was collected.

Daniel Rohrer and Jay Wissler showed slides of their exchange trip to Colorado.

A film on American Saddlebred horses was also shown.

The next meeting will be held Oct. 8, at 7:30 p.m. at the home of Ronald Kreider, Manheim, R. D. 1.

KOOKIE KOOKS MEET

by Peggy Eshleman, reporter

The Homemaking girls, Kookie Kooks, from the Penn Manor 4-H club presented a program for their sponsor, parents and friends at the Conestoga Twp. Elementary School on Sept. 18.

Representatives from Farm Women's Society No. 25 and Conestoga Lions Club presented awards to all the girls who completed their projects.

First-year Tasty Snack girls who won special recognition for outstanding work were Patricia Eshleman and Beverly Martin.

Second year Mealtime Magic girls who won special recognition were Linda Porter and Connie Stehman. Because these two girls won prizes the previous year, Linda Smith and Peggy Eshleman were next in line and received these awards. They received Betty Crocker Cook books.

MERRY STITCHERS HOLD FASHION SHOW

by Averril Royer, reporter

The Manheim Township Merry Stitchers concluded the season with a fashion show Wednesday evening for the Kiwanis Club of Northern Lancaster at the Stockyard Inn.

Prizes were awarded by the Kiwanis Club to the following girls. 1st year, Carol Kettering, Carla Ritchey, and Jamie Ritchey. 2nd year, Julia Fraily, Linda Sapper and Judy McCalmont. 3rd year, Charmayne Denlinger, Lynn Horst. 4th year, Janis Keeney, Kathy McCalmont, Linda Ober. 5th year, Mary Ellen Kettering, Eileen Landis, Jan Knight. 6th year, Averril Royer and Annette Long.

Narrator for the snow was Mrs. Herbert Royer. Leaders of the club are Mrs. Henry Kettering, Mrs. Virgil Ritchey, Mrs. Ray Ober and Mrs. Herbert Royer.

Area Veterinarians On 3-Week Flying Tour Of European Countries

Three area veterinarians are part of a 31-member group from the Pennsylvania Veterinary Medical Association who are presently on a three-week flying tour of Russia, Czechoslovakia, Poland, Germany, Sweden and Denmark

Local veterinarians making the trip are: Dr H L Todd Addis, Elverson; Dr C J. Bryer, Jr, Gap, and Dr Phillip P. Metzger Elizabethtown

The veterinarians departed from the John F. Kennedy International Airport on the first leg of their People-to-People Mission on Sept 8.

They arrived in Copenhagen the following morning for briefing by representatives of the American Embassy and Danish Ministry of Agriculture.

They have visited Danish veterinary colleges and other training institutes, in addition to meeting with local veterinary authorities.

Other stops on the 21-day agenda include Stockholm, Moscow and Tbilisi in the Soviet Union, Warsaw and Pulawy in Poland, Prague, Munich and Berlin.

The mission, one of the first by American veterinarians, has a double purpose, according to Dr Samuel F Scheidy, leader of the group The delegates will study the methods and working conditions of veterinarians and farmers in the countries visited and will attempt to improve understanding and relations between the United States and the people abroad.

FARM WOMEN NO. 3 GIVE $100 TO LIBRARY

At their regular monthly meeting the Society of Farm Women, Group No 3, elected to donate $100 to the Ephrata Library Association.

Among other business, final arrangements were made for the Food Stand at the Ephrata Fair with the decision to serve full-course meals each day. Plans were discussed for spending October 3 at the hunting lodge of Mr and Mrs. Elam Shelly in Perry County.

An illustrated lecture was given by Richard Warren on "A Covered Bridge Story." Members of Group No 16, and County President Mrs Landis Myer, were guests

The next meeting is scheduled for October 16 at the home of Mrs. William Eberly at Mt. Airy

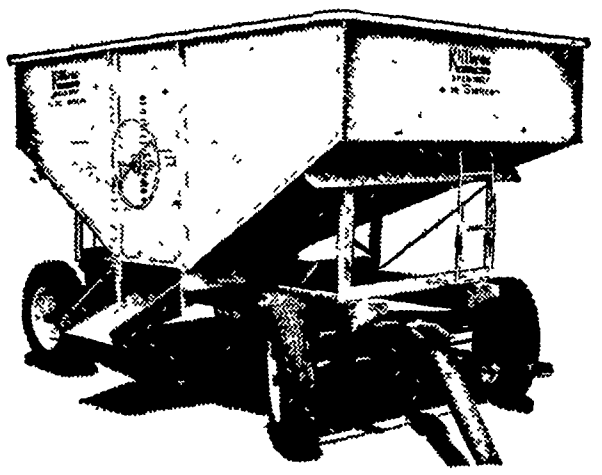
KILL BROS. "The Original"

All-Welded

GRAVITY GRAIN BOX

Bigger 165 bu. - Priced Right - Under $200.



The Leader in Sales of All-Welded Gravity Grain Boxes Since 1955

WHY YOU GET MORE WITH A KILL BROS.

- Ladder on front and rear of body.
- New extra steep slope for faster flow.
- All welded 14 ga. domestic steel body.
- Heavy angle iron undercarriage.
- Stake pockets welded on inside.
- Capacity approx. 165 bushels.
- With factory fitted sides over 200 bu.
- Ideal for handling bulk fertilizers.
- Safety door with automatic brake which holds door at desired opening.
- Truss rod and "X" brace supports rear of hopper.
- Wrap-around welded reinforcement at top corners.
- Completely assembled, ready to mount on standard wagon gear.
- Depth 21" to 54".
- Weight 950 lbs.

This box can be equipped with unloading auger for fertilizer, grain, etc. Order early for Fall.
Sample box can be seen at
Lititz and Strasburg Pike store.

Steer Show

Bertha Boose Wins Steer Championship

Fifteen-year-old Bertha Boose and her Hereford steer "Chippy" won nearly all the laurels in sight at the Lampeter Fair Baby Beef Show this week. They began by winning the Hereford class over 13 competitors, then went on to defeat the top-rated Angus and Shorthorn steers for the grand championship. Then just for good measure they captured the first place trophy in the fitting contest, and took the runner-up trophy in the showmanship competition!

This championship performance was the first in showring competition by Miss Boose. The daughter of Mr. and Mrs. Charles Boose, she is a junior at Conestoga Valley H.S. and has been active in 4-H Club shows for four years.

The winning Angus was shown by Dale Bushong of Columbia R2, and went on to take the reserve champion steer title. The animal, "Joey," was bred by Lee Hill Farm, Virginia. Dale is the 14-year-old son of Mr. and Mrs. Robert Bushong of Columbia R2, he is a sophomore at Hempfield H.S.

In the Shorthorn class, the winning entry was shown by John Welk, son of Mr. and Mrs. H. Leroy Welk of Strasburg R1. Runner-up was shown by Donna Hess, daughter of Mr. and Mrs. Elvin Hess, Jr., also of Strasburg R1.

Judging the event was Dale James, assistant county agent of Carbon County.

The showmanship event was won by William Houser of Lampeter. He is a recent graduate of Lampeter-Strasburg H.S., and is the son of Mr. and Mrs. Wilbur Houser.

Runner-up in the fitting contest went to Edwin Hess, son of Mr. and Mrs. Elvin Hess, Jr.

Show results:

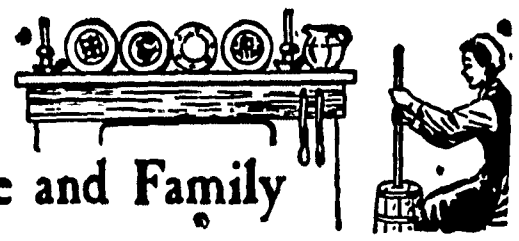
MOUNT JOY, PENNA. Ph. 653-1451



For the Farm Wife and Family

By Mrs. Richard C. Spence, Food Editor

Do You Cook Vegetables Properly?

SPENCE

Serve fresh grapefruit chilled or hot. Serve it plain or fancy-up with one of the following appetizing toppings:

Grapefruit Appetizer or Salad Refresher: Over each grapefruit half, spoon 2 teaspoons French dressing, then sprinkle with ¼ teaspoon crushed oregano leaves. Chill thoroughly.

Minted Grapefruit Halves: Perfect for a light summer dessert or as a luncheon salad accompaniment. Sprinkle 2 tablespoons crushed white or pastel after-dinner mints over each grapefruit half. Chill until icy cold.

Spicy Broiled Grapefruit: Serve as novel first course; nice, too, as dessert. Spoon 1 tablespoon maple-honey flavored syrup over each grapefruit half. Place on broiler rack and broil slowly, 5 to 8 minutes, or until lightly browned. Sprinkle with nutmeg or cinnamon and serve immediately.

Baked Grapefruit Voila: For a hot taproetizer or change of pace dessert, sprinkle 2 teaspoons sugar over each grapefruit half. Dot with butter or margarine and top with 1 teaspoon rum extract. Bake at 400 degrees about 20 minutes. Serve hot.

* * *

BLUEBERRY PANCAKES

2 eggs
2 cups buttermilk
1 teaspoon soda
1 teaspoon salt
2 teaspoons sugar
2 cups sifted flour
1 cup blueberries, fresh or frozen
6 tablespoons butter, melted

Beat eggs until light and fluffy. Add buttermilk. Sift together soda, salt, sugar and flour. Add to egg buttermilk mixture. Beat until smooth and add 6 tablespoons melted butter and blend. Fold in blueberries. If the batter should get too thick, add a little milk. Makes enough pancakes for 4 to 5 servings.

* * * *

ORANGE-STRAWBERRY SALAD MOLD

1 cup hot water
2 3-ounce packages, orange, orange-banana or tropical fruit-flavored gelatin
1 cup orange juice
4 oranges, peeled, cut into bite-size pieces
1 10-ounce package, frozen sliced strawberries, slightly thawed
1½ cups dairy sour cream
Salad greens

Pour hot water over gelatin, stirring until dissolved. Add orange juice, orange pieces and strawberries; stir until berries are completely thawed. Pour half the gelatin mixture into 13½ x 9 x 2-inch pan; chill until firm, about 30 minutes. Spread sour cream over set gelatin. Carefully spoon remaining unset gelatin mixture over sour cream. Chill until firm. Cut into squares and serve on salad greens. 8 to 10 servings.

* * * *

MOLDED ORANGE-BUTTERMILK SALAD

1 cup orange juice
1 3-ounce package orange-flavored gelatin
1 cup buttermilk
¼ cup finely chopped pecans or almonds
2 oranges, peeled, cut into bite-size pieces

Heat orange juice just to simmering; remove from heat and add gelatin, stirring until completely dissolved. Stir in buttermilk; chill until slightly thickened. Fold in pecans and orange pieces. Spoon into 6 individual molds or paper cups. Chill until firm. Serve in molds or paper cups, or unmold on salad greens if desired.

* * * *

GLAZED FRUIT PIE

1 baked 9-inch pie shell
1 10-ounce package frozen red raspberries
1 12-ounce package frozen sliced peaches (or fresh peaches)
2 tablespoons lemon juice
2 tablespoons cornstarch
2 oranges, peeled, cut into bite-size pieces, drained
1 large banana, sliced
1 orange, peeled, sliced into cartwheels
½ cup heavy cream, whipped

Using your favorite pastry recipe, prepare 9-inch pie shell; bake and cool. Thaw raspberries and peaches. Drain and reserve juice. In saucepan, stir lemon juice and cornstarch together; blend in drained fruit juice (there should be about 1¼ cups).

bring to boil; reduce heat and simmer 4 to 5 minutes. Cool. Combine drained raspberries, peaches, drained orange pieces and sliced banana; stir ⅔ of the cooled glaze through fruit. Spoon fruit into baked pie shell. Cut orange marshmallows in half; arrange on top of pie. Spoon remaining glaze over fruit. Chill an hour or longer. Serve with whipped cream.

* * * *

AMBROSIA DESSERT CUP

2 oranges, peeled, cut into bite-size pieces
2 tablespoons honey
2 tablespoons chopped dates or raisins
3 maraschino cherries, sliced
¼ cup flaked coconut
1 medium banana

Combine undrained orange pieces, honey, dates, maraschino cherries and coconut. Peel and slice banana; stir lightly into fruit mixture. Spoon into dessert dishes or serve from glass serving dish. 3 to 4 servings.

* * * *

BERRY DELIGHT

1⅓ cups graham cracker or vanilla wafer crumbs
¼ cup sifted confectioners' sugar
¼ cup melted butter or margarine
2 eggs, unbeaten
⅓ cup sugar
1 8-ounce package cream cheese, softened
¼ teaspoon salt
2 cups fresh or frozen blueberries
½ cup sugar
2 tablespoons cornstarch
¼ teaspoon salt
¾ cup water
¼ teaspoon grated orange rind

Mix together crumbs, confectioners' sugar and butter; press in layer in an 8x8x2-inch baking pan. Beat eggs; add ⅓ cup sugar, cream cheese and salt; blend together; pour over crumb crust. Bake in 375 degree oven for 20 minutes; cool. Cover with 1 cup blueberries. Bring together ½ cup sugar,

For the Farm Wife and Family

By Doris Thomas, Extension Home Economist

Ladies, Have You Heard? . . .

Some Guidelines For Clothing Selection For Older Women

THOMAS

Choosing the right clothes helps middle-aged and older women achieve the special attractiveness that comes only with maturity.

Some things to consider in clothing for these age groups include:

Lightness in weight of fabric because it is less tiring to wear.

Warmth of fabric because of reduced temperatures among older people.

Flexibility in fabric and garment construction to give comfort in movement.

Finishes that add plus performance values to the fabrics.

Colors that are fast to wear and to methods of care.

Also consider the esthetic factors. Mature and older people should wear shades that flatter the skin and hair tones, colors that enhance their appearance and personality.

Broiler-Fryers Preferred

More broiler-fryers figured in meals of families in the United States during 1964 than during 1956. This is what United States Department of Agriculture research workers found when they asked homemakers for their opinions on broiler-fryers, then compared the findings with a similar study made in 1956.

Of the homemakers interviewed in the 1964 study, almost two-thirds served broiler-fryers at least once a week. In 1956, only half the homemakers interviewed had served broiler-fryers this often. Homemakers in the Northeast and the west favored the young chickens and these homemakers showed the greatest increase in numbers serving broiler-fryers one or more times a week.

Pa. Looks Forward To 1966 Plowing Contests

Pennsylvania will have three competitors in next year's National Plowing Contest, including one of its 1965 entries whose high placing earned for him the automatic right to return for a second try

Jack R Grey, deputy state secretary of agriculture, chairman of the State Plowing Committee, reported that Pennsylvania's third entry in 1966 will be Frank C Kocevar Harrisburg RD 1

Two regular Pennsylvania representatives to the 1966 nationals will be decided at next year's state meet, site and date for which have not yet been selected The 1965 contest was August 28 at Hershey

Kocevar this year's state level land winner, placed third in level land in the national matches September 18 at Waseca, Minn He was one of fourteen contestants Under national rules the first three place winners are eligible to compete again without further qualification

Dale Rebert, Spring Grove, RD 3 state contour champion, who finished 9th among ten contour contestants at Waseca will be a competitor again in 1966 he said on his return home He will start again 'from scratch,' by entering the York County preliminaries

Grey said preparations for the 1966 Pennsylvania county and state plowing competition will start September 27 at a meeting of his committee in Reedsville

● Diversion Payments

(Continued from Page 1)

and price-support payments of $25,392 under the feed grain program, and diversion payments of $11,436 and marketing certificates of $76,702 under the wheat stabilization program.

In the signup held last spring, 395 county farms were enrolled in the 1965 feed grain program for an agreed diversion into approved conserving uses of 5,335 acres of corn, barley, and grain sorghum; 588 farms were signed up in the 1965 wheat program for an agreed diversion of 1,262 acres.

Nationally 1.5 million farms were signed up in the 1965 feed grain program for an agreed division of 34.6 million acres; 891,000 farms were signed up in the wheat program for a diversion of 7.5 million acres As a result of the programs, carryover is estimated at 55.2 million tons — 35 percent below the 84 7 million tons carried over on Oct 1, 1961; the wheat carryover as of July 1, 1965, is estimated at 819 million bushels -- 42 percent below the July 1, 1961, carryover of 1,411 million bushels.

● Lampeter Fair

(Continued from Page 9)

Sands, Holstein producer from Luzerne County, over numerous entries in the Holstein division

Reserve title went to a Holstein shown by Melvin Peifer of 1438 Hans Herr Drive, Lancaster, on his two-year-old Holstein cow Peifer also had the reserve senior champion The junior champion was a senior yearling shown by J Mowery Frey, 401 Beaver Valley Pike, Lancaster.

Grand champion in the Guernsey breed went to a dry, four year-old cow shown by Melvin Breneman, Strasburg R1 That cow "Quarryside Rival Pauline," was bought about four months ago by Breneman as part of a herd She also took the senior championship and best udder for the Guernsey division Donald Breneman, Strasburg R1, showed his intermediate calf to the junior championship

Reserve went to the aged cow shown by Arthur Breneman of Willow Street R1

In the Jersey breed show, J Marvin Herr of Holtwood R1 swept all honors with his four year-old former state champion cow She won senior and grand championship honors, then came back in the showmanship trials for another victory Herr also had the junior and reserve championships in the Jersey divisions

Runnerup in the showmanship event was Leroy Welk of Strasburg R1 Winner of the fitting contest was Edwin Hess, also of Strasburg R1.

New John Deere 237 Corn Picker

raises the speed limit in high-yield corn

Shift up! Pick at speeds up to 5 mph, even when yields run well over 100 bushels. Long, tapered gatherers and high inside shield, funnel stalks right in. Even tangled stalks seldom escape **three** roller-type gathering chains. There's new gathering and snapping speed. And the 237's spiral snapping rolls cut shelling loss in half.

Faster elevators with higher flights move corn up fast. Trash goes too, aided by new rotating trash paddles. New husking rolls — cast-iron spirals against serrated rubber — peel husks, pull trash through You pick clean. See the new 237 soon. Ask about the Credit Plan.

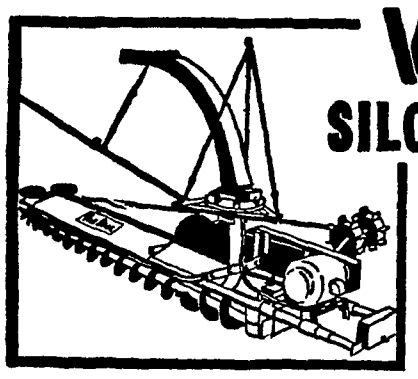
Complete automatic feeding for DAIRY COWS and CATTLE!

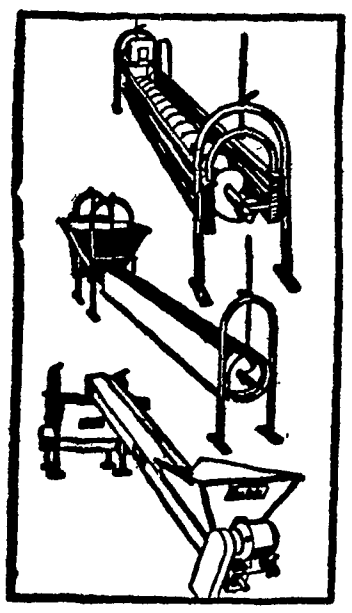


VanDale SILO UNLOADERS

Double augers deliver more silage per minute even when silage is deeply frozen . . . and at a lower operating cost. Patented V-paddle impellers *throw* . . . not blow . . . silage down chute. Adjustable drive hubs give positive traction in all types of silage.

Three-point suspension keeps unloader level at all times.

Plus a complete line of bunk feeders to meet your exact needs



Straight-out Auger Feeder

With VanDale units you can custom build the bunk feeding set-up to fit your needs. Drive section includes hopper, drive assembly and 10', high capacity 9" auger. Additional auger sections are in 10' units and are easily coupled.

Feed-R-Flo Bunk Feeder

The new, all-metal complete feeder. High capacity 9" auger rotates within tube. Gives all-weather protection, even feed distribution, and lower operating cost.

Conveyor Trough

An important link in automatic feeding. Positioned below silo chute, the VanDale conveyor trough carries the silage to the bunk feeder. Primary section includes hopper, drive assembly, and 10', 9" auger. Additional 10' auger sections may be added.

See us for modern automatic feeding equipment

Farm Agent Notes '66 Beef Project Deadline

The enrollment period for the 1966 4-H Baby Beef Project is at hand and boys and girls 10 to 18 years of age are urged to consider this livestock project, says M. M. Smith, Lancaster County Agricultural Agent.

The project requires that each club member begins with a small steer calf, weighing from 300 to 450 pounds, of one of the common beef breeds. The steer is fed for about one year for one of the area livestock shows including the Pennsylvania State Farm Show at Harrisburg.

For a number of years there have been two baby beef clubs active in the county. The Red Rose Club covers most of the county and the steers are put on feed in November for the State Farm Show. The New Holland Club is restricted to the northeastern part of the county. They show and sell their steers at the New Holland Farm Show each fall.

Interested boys and girls are urged to contact a Club Leader in their community or enroll at the Extension office, 202 P.O. Bldg. Lancaster.

Enrollment deadline for both clubs is October 1

Annual FFA Roundup Held At Lampeter Fair

Future Farmer of America boys from the nine high schools in Lancaster County offering vocational agriculture gathered at the Lampeter Fairgrounds Thursday for their annual roundup. This affair featured dairy and livestock judging competition, the results of which will be announced at the next agricultural teachers meeting on October 5.

The boys judged eight classes: senior yearling Holstein heifers; three and four year old Holsteins; aged Holsteins; Guernsey cows; Angus and Hereford steers; fattening swine and poultry.

The day's activities are traditionally topped off with rope pulling and horseshoe pitching contests. The defending rope pulling champions, the Grasslands Chapter, gave way to the new champs from Ephrata High School.

The top-scoring school gets a year's possession of a rotating plaque. Garden Spot H.S. has it now for their performance last year. In addition, individual ribbons go to boys in each school who scored in the top five places on a combined livestock and dairy basis. The five high scoring boys in the dairy and livestock from each chapter also receive ribbons. The top ten high-scoring individuals in the county each gets an FFA-Member-Lives-Here-sign.

When applied according to soil test, fertilizers maintain soil fertility by replacing plant nutrients removed by crops and lost by erosion and leaching. Fertilizers build soil fertility to most profitable levels.
